

Title: Client Development/Industrial Consultant

Janet Brumbaugh & Associates is conducting a retained and confidential search for a key role in an energy efficiency firm. This company prides itself in its egalitarian approach and is a great group of people to work with. We are seeking candidates for a Client Development/Industrial Consultant position for the Pacific Northwest. This business-savvy person will help develop energy efficiency strategies with utilities and their industrial clients. The primary qualification is 5 years or more experience in one or more of the following industries: **manufacturing, engineering, utilities, and energy efficiency**. A technical degree is also required. The position will involve approximately 20% or less travel (mostly local) in the Northwest.

This opportunity is a newly created position. Benefits include flexible work conditions, including working at home or at one of the office locations. The successful candidate will receive a competitive base salary with bonus as well as excellent benefits.

If interested, please contact Janet Brumbaugh at 503-697-7992 or janetbrumbaugh@comcast.net.
