

# **Electric League Code Committee Meeting Notes from 03/21/2018 Submitted by Murray L McKinney Jr**

## **Attendance:**

Murray McKinney Jr.	McKinney Assoc.	Ken McGowan	HDR
Al Hewitt	Bussmann	John Saldana	City of Seattle
Brook Walker	Electric League	Andrew Pultorak	Puget Sound Energy
Bob Schneider	D. Hittle & Associates	Andrew Kosobutsky	NC Power Systems
Len Whalen	LDW Engineering	Josh Martinez	PLS
Randy Wilson	Cummins	Rob Marks	Snohomish PUD
Dan Steinert	McKinstry	Cameron Clark	Eaton - Elec
Michael Brisbois	Siemens		

## **Opening:**

**Labor and Industries** – Not Present

### **City of Seattle** – John Saldana

- Seattle is posting electrical inspector job openings.
- Plan review training class had 60 people attend. Seattle may host a second class.
- Seattle is working on the new permitting database. Implementation is targeted for April 9th.
- Eaton would like to discuss with SDCI about what products listed as a fuse holder vs fuse connector. There is confusion about what products can be used under what applications and what UL ratings they need. Al Hewitt to follow up with SDCI.
- Seattle may require EV charging stations to be actually installed. Charging stations will need to be taken at 125% if a load management system is not installed.

### **City of Bellevue** – Not Present

- 

### **PSE** – Andrew Pultorak

- New incentives are active. There are large incentives on retro and new construction for fixtures with both daylight and occupancy sensors. This method of control is referred to as a LLC Fixture.
- PSE's case studies have shown these fixtures drastically reduce lighting energy consumption.

### **Snohomish PUD** – Rob Marks

- New construction lighting rebates are now active. Design needs to meet 35% better than code threshold.
- There are active HVAC rebates. Bonuses up to 25%.
- There are plans for a building recommissioning pilot program.

### **Energy Code** – Dan Steinert

- There hasn't been any activity. The Building Code Council is currently updating their information. Energy Code Tag is waiting for other Code Committees to be ready to issue their proposals.
- A form will be available soon to submit proposals for the next iteration of the Energy Code.

### **IAEI / NFPA** – Al Hewitt

- Al traveled to Jackpot Nevada to present a class on overcurrent protection and short circuit current.

## Electric League Code Committee Meeting

### Page 2

60 people attended.

- There will be a meeting on April 14th in Everett. Al will be presenting.

#### **IEEE / IAS**– Cameron Clark

- No meeting this month.

#### **Electric League** – Brook Walker

- New office on Northrup and 124<sup>th</sup>.
- March 29th - Young Electrical Professionals happy hour with drink ticket. Location will be at Renton Landing.
- June 15th - Power Alley Mariners Game. \$75 apiece. Includes dinner and drink tickets.
- May 17th EV Charging Station and Load Management Systems presentation at the LDL.

#### **New Business** –

- SCL is requiring a 5'X7' above grade water mitigation closet for in-building vaults located below grade (in their radial system only).
- Lighting Design Lab is putting on classes about lighting design and branch circuiting.

#### **Adjournment**
